Subject RE: OU-1 RA Comments

Chris - We concur with your concern about redundancy. Let's discuss in Monday's call. We won't be able to provide you with any proposed language prior to the call, but I'm very confident that we can readily resolve this issue with no impact to the resubmittal schedule. Also, the only other comment that we'd like to discuss with you is the 4th bullet of comment 4 in the October 18 RI letter - we'd like clarification from you and Stan regarding the need to delete the cited clause. We are comfortable with all other comments in your October 11 and 18 letters.

Dave

Subject: Re: OU-1 RA Comments

Ed,

Stan and I talked about comment 3 in the 10/11/07 HHRA conditional approval letter. If OPOG wants to repeat the executive summary/conclusions that are presented at the front of the report as a conclusions section in the back, that would be OK. Obviously, that would be redundant. Alternatively, OPOG can provide an executive summary with strikeouts as a proposal for a revised conclusion section. The latter should be provided to EPA as soon as possible, and before the 10 AM call Monday.

OU-1 RA Comments

Chris:

Per our telephone conversation this morning, the purpose of this e-mail is to coordinate a teleconference call for Monday October 29, 2007 to discuss the risk assessment comments. From a brief conversation that I had with Dave Chamberlin, CDM can address the comments, however, we would like to discuss Comment 3 in more detail.

As a start, I am going to suggest at time of 10:00 am PT. Upon confirmation, I will provide teleconference call numbers.

Sincerely,
Edward Modiano
OPOG Project Coordinator
